Just reviewed our itinerary and it looks like tomorrow (Thursday) is better. We don't have any parks scheduled tomorrow.

Friday works for me as well. Please, by all means enjoy your time with your family. If the situation at the Explo System's facility somehow changes before Friday, I'll try to reach you. Thanks again for being so attentive. Best regards,

Friday is probably better for me, but if you set something up, I will make myself available anytime. I will try to call you later today.

So sorry to bother you while you're on vacation with your family, but I do appreciate you getting back to me. I would not have otherwise attempted to contact you were it not for the situation concerning the Explo Systems matter at Camp Minden, which I assume you are familiar with. The reason for my wanting to touch base with you is so that all parties involved (State, EPA, DOD, La Nat'l Guard) can coordinate with resources, guidance, etc., in the event Explo becomes financially unable to continue the site stabilization efforts. The EPA and the La State Police are concerned that that may occur sooner rather than later.

If you'd like, I would be happy to entertain a call sometime tomorrow or Friday, unless any changing circumstances at the site dictate a more pressing need for communication. Please let me know if that would be more convenient for you. Thanks again for your quick reply, and I hope you enjoy your time with your family in the meantime.

I am at Disney with my family, so it is difficult to hear my phone sometimes. I apologize. When would be a good time to call back?

Hi Maj Thibodeaux,

I really appreciate you making yourself available while on leave. I just called and left you a message. I am one of the attorneys with the EPA assisting in the Explo Systems/Camp Minden matter. The main EPA counsel is George Malone. Although I'm working from home today, you can reach me at 214-535-9661. George Malone can be reached at his office number, which is 214-665-8030. George and I were hoping to coordinate with all counsel involved (State Police, La Nat'l Guard, DOD and EPA) to further the efforts in stabilizing the site at the Explo Systems facility. Thanks,
